- Compact Control Board
- Easy to install & simple wiring diagram supplied
- Compatible with all gate and door systems
- Full 12 month warranty

GSM HEAT OPERATING SYSTEM:

Save on your heating bill

Control heating with your phone. Working irregular hours! Instead of a timer, why not switch on the heating a half hour before returning home! Save on your oil & gas costs.

Come home to a warm house

Arrive home to a warm house after being on holidays, just switch the heating on by phone when you leave the airport.

Holiday homes

Comfortably heated before you arrive.
